The Real Shipping and Installation Costs Unveiled

You know, when we first shipped containerized solar systems to Gujarat last monsoon, the transport charges surprised even our logistics team. A typical 40-foot solar container moving from Mumbai to Rajasthan costs INR85,000-INR1,20,000 (\$1,020-\$1,440), while installation expenses range from INR2.5-INR4 lakh (\$3,000-\$4,800) depending on site complexity.

Component	Urban Cost	Rural Cost
Road Transport	INR75/km	INR110/km
Crane Rental	INR15,000/day	INR28,000/day
Commissioning	INR1.2 lakh	INR2.1 lakh
